2024 Staleness Calendar FOR FOREIGN PRIVATE ISSUERS

JANUARY

Registration statements and prospectuses for registered offerings by foreign private issuers (FPIs) must contain certain historical financial statements. If too much time passes after the date of a set of financial statements, those statements go "stale" and an issuer must include the financial statements from a more recent interim period or year-end. This calendar sets forth, for FPIs with a December 31, 2023 fiscal year-end, the last dates on which financial statements may be used before they go "stale" and must be updated.
